- **Project Completion:** Aug 2019
- **Funding Source:** Sales Tax
- **District:** 3
- **Learning Community:** SW
- **Architect/Engineer:** BRPH
- **Contractor:** Williams Co
- **Project Manager:** Cass Hurst
- **Project Budget:** \$23.4 M

### Project Description:

Project scope provides for select renovation and system replacements in all buildings campus-wide. Major elements include:

- Campus-wide roof, intercom, fire alarm and intrusion detection system replacements
- Replacement and enhancement of the existing security camera system.

Major renovations of buildings 100, 200 and 300 include:

- Exterior envelope repairs and exterior painting
- Mechanical fire protection system replacements
- Restroom renovations and remodeling to meet ADA requirements
- Interior painting
- New ceilings and LED light fixtures
- Rekeying of all campus buildings is also included
- Replacement of DX HVAC equipment serving labs in Building 500
- Conversion to chilled water AHUs has also been added

A separate project is planned for renovation and remodeling of the existing gymnasium following construction of a replacement gymnasium. The scope of that project will also include interior painting of the remaining buildings, funded through the District painting budget allocation.

### Project Update:

Project completed and accepted.
